

I am a proud graduate of this school, and, more importantly, I am a devoted mother of two beautiful children, one of whom is currently enjoying her kindergarten years while the other is just five months old. My journey as a parent has ignited a deep passion within me, not only for the well-being and development of my own children but for all the children in our school community.

As a passionate fundraiser, my heart beats to make a difference in our community. I firmly believe that service is not just a word but a calling. I've channeled this passion into numerous initiatives, and now I'm eager to direct that energy towards our school. By serving as your representative, I aim to bridge the gap between parents, teachers, and the administration, ensuring that our voices are heard and our concerns are addressed.
