

Dear Ahliyyah & Mutran Parents Council's committee,

I am Rania Bader, a mother of 3 daughters and a son; I work in the media department of the Saudi Embassy in Amman.

I am proud to say that my daughters are all Ahliyyah students. My eldest, Yasmeen Abdeen, is now working as an energy engineer in a leading engineering consultancy firm in Riyadh, my second daughter, Jumana Abdeen, finished her first year of industrial engineering at GJU, and Dania Abdeen is in her IB journey, grade 12, and is currently A&M MUN secretary general. My son graduated from medical school, and is currently a resident.

I would like to be part of the A&M Parent Advisory Council team for several reasons. I appreciate being involved in my daughters' school and activities, and I believe I can make a positive contribution to the team, as I have more than 10 years of experience as a member of the PTA at my son's school until he graduated. I have attended many parent meetings and participated in organizing various events. I value our school's system and commitment to giving our students the best education and discipline they need for their future lives. I strongly believe that a parent council is of great importance to create a harmonious community and foster more growth.

Best reagrds,

Rania Bader
