

My Name is Yasar Malhas, I am a working of mom of three children (Haya Awamleh Grade 9, Mohammad Awamleh Grade 6 and Naser Awamleh KG1), I am the Sales and Marketing Manager and Partner of an Incoming Tourism Company where we bring tourists from Europe to show them our beautiful country Jordan. As a working Mom of three I learned excellent management skills, how to manage a leading tour operator with 12 employees in addition to my duties to my kids and to myself. Incoming Tourism is my passion, I was raised among guides and incoming tourism managers, I was raised to appreciate what my country offer to visitors that led to a huge sense of citizenship, belonging and love to my country that I would like to pass on to my children and the people around me.

I believe a partnership between the school and the parents helps develop successful and well-rounded students. This partnership provides students with more opportunities to learn and grow from a larger range of viewpoints and life experiences.

I believe I can contribute to the school community through giving the teachers and the management some ways to improve the student life inside and outside the school, when parents are more involved in the school decision making and by listening to the teachers and management, parents can have a wider idea of what is exactly going on inside the school from opportunities to challenges and parents can always help in the area of their expertise and this will create a more understanding relationship between the two parties and thus a healthier environment for the students.

Parents can be a great ambassadress for the school in social and official networks or conferences that I will be more than happy to contribute you in or with.

Through my work, I can help teachers and students to get to know Jordan better, either through visits, bringing different experts to talk about Jordan or to arrange fund rising events to support different parts in Jordan and its people.
