

My name is Jeeda Samaan, I am a Food Safety and Quality Assurance Consultant, I have 17 years of experience in my and in 2015 I established my company Click Management that provides consultation services in different fields. I am a lead auditor in 5 Quality and Food Safety Management System as well as a certified trainer from UK for all levels of food Safety. I am a certified Business Coach that support businesses and startups in the fields of quality, business planning and feasibility studies. Due to this background and experience I believe i can add value to the PTA by improving any policies and procedures as well as creating standard operating procedures when needed to enhance the environmental and educational conditions. Another role is to build a channel between parents and school's higher management in addition to be the sound of every parent in the meetings to reflect their needs and concerns. As well as support students and involve them to be part of the school's community to understand the program better. I aspire to initiate a social committee that will engage parents and students to help any student in need and last but not least, I would like to organize and create many voluntary

work initiatives for the whole school to showcase our students the importance of giving back to our communities.
