

My name is Hania Jezrawi, I have BA in business administration , I work at the embassy of Canada since 2004, my current job is International Assistance Officer and a mother of three boys at BSA.

Being a passionate and responsible parent who is heavily involved in my children's daily tasks and activities at school, and with my great sense of responsibility towards my beloved educational institute ASG BSA, I believe that my participation in the parents' council is a great opportunity to utilize my experience and passion, to put my thoughts and ideas to better serve the good cause of establishing such a council for the best of our school and students.

Hoping to be up to the expectations and looking forward for a great interactive council.
